

Asoni Linux-based Standalone NVR

The Most Compact NVR Solution

- 4CH / 16CH NVR with free CMS & local monitor display

NVR604LX

NVR616LX

FHD FHD Resolution

Support 1920 x 1080 resolution. Asoni NVR provides users the choice of recording the highest video quality.

IE Remote via IE

Built in web server allows users to access full control through IE browser. For remote surveillance, users can control NVR simply through internet.

Local Display

Supports local monitor display. Just connect NVR with a monitor, users can use mouse and/or IR remote control to watch video or modify NVR setting.

Auto on After Power Resume

Built-in power resume function. In case of sudden power outage, user doesn't have to access the NVR to switch it on. NVR will automatically turn on when power supply resume.
